Governor,

We spent a considerable amount of time today in AGIA team meetings trying to plan for friday evenings announcement and/or press conference. It is very clear to the team that the Conoco proposal is likely to elicit significant interest from the media and could be the subject of the toughest questions. Is it possible to get any materials Mr. Mulva provided today? That could help us prepare for and anticipate those questions.

Subject: Conoco

Bill:

Everyone I've spoken with sure appreciates your coverage of Conoco's refinery announcement. You are able to add perspective that is deeper than a superficial press announcement - I know that takes extra effort, and it's certainly recognized and respected.

I speak with Jim Mulva tonight at a Governor's conference in CA (I'm headed there now) and am interested in getting the real scoop from the CEO regarding his directive to his Alaskan top brass. Confidentially, I've had the sense in past conversations with him that he's not been fully kept in the loop by the local Conoco folks. He's very resonable and progressive and positive, so we'll have a good conversation about his company's plans up here.

Thanks again for your professional, good work.

Subject: Increase In Administration Budget For UA Investment In UAF SFOS Fisheries Program

Jeffrey R. Stephan

United Fishermen's Marketing Association, Inc.

November 26, 2007

Sara Palin, Governor

State of Alaska

P.O. Box 110001

Juneau, AK 99811-0001

Re: Inclusion of Additional $1 Million in Administration Budget for University of Alaska UAF SFOS Fisheries Program

Dear Governor Palin,

The Board of Regents of the University of Alaska (UA) has included $1 Million in their recently recommended FY09 UA budget for the Fisheries Program at the University of Alaska Fairbanks (UAF) School of Fisheries and Ocean Sciences (SFOS). Specifically, this $1 Million is budgeted in support of the development of a new Bachelor of Arts (B.A.) degree in Fisheries at SFOS, and will be used to match a $5 Million grant that was so generously provided by the Rasmuson Foundation for the expansion of the SFOS academic program.

We respectfully request that you include and support a $1 Million increase in the UA FY09 Budget for the indicated SFOS Fisheries Program in the Administration FY09 Budget that you submit to the Alaska Legislature.

The objectives and plan that have been established by SFOS for the Fisheries Program are relevant, effective and sensible, meet real needs, and are anticipated to possess the flexibility to address current and emerging opportunities and challenges. The vision that forms the basis of the Rasmuson Foundation grant to the University of Alaska for this purpose is enlightened.

The State of Alaska has a fortunate and propitious opportunity, and, in our opinion, an earnest responsibility, to develop a high quality, broad based, multi-disciplinary Fisheries Program that trains and educates Alaskan students, and that attracts talent from outside Alaska, to become professionally engaged in meeting the diverse academic, research, business and technological opportunities and challenges that will continue to emerge in the Alaska fishing and seafood enterprise. The potential and prospects for success and maximum benefit for Alaskans that derive from the Alaskan seafood enterprise are more certainly assured through the development of a solid, widely respected and well supported Alaska based SFOS Fisheries Program that provides needed opportunities, education and encouragement for current and future generations of Alaskan students.

Moreover, we believe that an investment of increased funding from the State of Alaska in the SFOS Fisheries Program is likely to attract, and otherwise provide justification for, the investment of additional funds from the U.S. Congress, federal agencies, NGOs, state agencies, private institutions, industry sources, etc.

Thank you for your serious consideration of our request that you include and support a $1 Million increase in the UA FY09 Budget for the SFOS Fisheries Program in the Administration FY09 Budget that you submit to the Alaska Legislature.

Sincerely,

Jeff Stephan

Subject: House Question

Hello Governor,

We have two bids from the electricians; the difference between the cedar room and the basement is only $195.75.

Benefits to the House-
The third floor breaker is at capacity, so it would be good to increase the capacity for future use verses the basement where it isn't an issue. This option would allow for additional circuit loads on the 3rd floor (During phase 2 of the plumbing project to move the portable w/d upstairs). The state would pay for the replacement of the breaker box.

Please let me know how you'd like for me to proceed.

Thanks,
Erika

Anchor Electric
Cedar Room- $3,252.35
Basement Family Room- $3,056.60
Chattham Electric
Cedar Room- $4,672.21
Basement Family Room- $2,918.44

Dear Jeff - Thank you for your email to Governor Palin in support of the University of Alaska's FY2009 operating budget increase of $1 million for the fisheries program. The University's efforts to attract Alaska's high school graduates and provide postsecondary education necessary to meet the growing demands for jobs in Alaska are very impressive. We also recognize the challenges facing the University in delivering these services given the rising costs of doing business. The University's budget recently adopted by the Board of Regents is a key part of our budget development.

As you know, we are developing the FY2009 operating and capital budgets that will be release to the public in December. The governor's budget goals are very clear: to slow the growth of government, live within our means, and save for the future. Within this budget discipline, our priorities must be to promote a strong economy, world-class education, safer communities, and solid infrastructure. The budget will prioritize spending, make substantial investments in core services, and save for our future.

The budget will focus on the state's basic responsibilities, schools, public safety, and needed transportation improvements that are essential to getting Alaska's infrastructure ready for the state's economic future. We look forward to working with municipal leaders, legislators, and the public to develop a responsible and sustainable budget for the State of Alaska. Thank you for taking the time to share you support for the University's budget.

Karen
